Toilet Suites Guide

Explore the Caroma Difference

Discover our market leading toilet suites

From contemporary designs with sleek lines to timeless classics, our collections offer a diverse selection to suit every taste and style preference, and a variety of water efficient technologies. Engineered for superior performance, durability, and water efficiency, ensuring years of reliable use and comfort.

Our toilets have been designed and stringently tested at our dedicated Design and Innovation Centre in Sydney.

Enjoy peace of mind with extensive warranties across Caroma toilets, with up to 20 years warranty.

CAROMA

CLEANFLUSH®

Our patented rimless toilet technology delivers a whole bowl clean with no splashback.

CAROMA

GERMGARD®

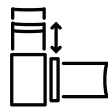

A unique antimicrobial formula that kills harmful bacteria, preventing the spread of nasty germs.

CAROMA

UNI-ORBITAL® CONNECTOR

Our patented connectors overcome installation issues by allowing for a flexible 50mm radius for connection.

CAROMA

ADJUSTABLE FLUSHPIPE

Quickly realign the water inlet of your Invisi II in-wall cistern without damaging your wall.

*See www.caroma.com for full warranty details

CAROMA

Made For Life

Our most effective and hygienic toilet technology.

By removing the rim of the bowl, there is now nowhere for germs to hide. And by adding Caroma's flush and flow features we've created a superior flushing performance that delivers a cleaner clean.

Innovative Flow Splitter for extra coverage

Sculpted Flow Contours for superior washdown

Flow Balancer that controls and directs the flush

Flush flow matched in performance to our optimum sump design

The Caroma Difference

Caroma Quality Assurance

Caroma products are quality tested beyond the industry standards and backed by a market leading warranty.

- Each pan is tested to at least twice the Australian standard of 400kg
- Caroma toilet seats are load tested to exceed the Australian standard of 150kg
- 100% of our cisterns are leak tested, with plastic cisterns undergoing batch testing
- Easy height options, specific assisted living and AS1428.1 compliant suites available

Superior hygiene

Discover revolutionary toilet technology across select Caroma toilet suites. Caroma CleanFlush® features a cleverly designed bowl with innovative flush flow technology, ensuring a consistent clean, whilst Caroma GermGard® protection is a unique, proprietary antimicrobial formula that kills a minimum of 99% of bacteria it comes into contact with.

Installation flexibility

Make installation easier than ever with Caroma innovations. Discover the Caroma Uni-Orbital® connector that helps to overcome many common installation issues and enables the set out to be extended to any position up to a 50mm radius. Our Adjustable Flushpipe technology also solves issues where finished floor tiling has been laid higher than specified, preventing the pan inlet from aligning with the cistern pipe.

Oscillating & pulsating spray functions for a thorough clean

An enhanced and comfortable seating experience

Automatic lid for touchless control and superior hygiene

Comfort and reduced toilet paper usage

Includes Caroma Innovations

Choosing the right toilet Suite

Step 1. Select your toilet type

CONCEALED

The cistern is hidden inside the wall cavity, leaving only the toilet pan to be seen.

CLOSE COUPLED

The pan and cistern are joined together so you cannot see the flush pipe. The Caroma Uni-Orbital® Connector provides rotational positioning, allowing for more accurate suite alignment.

WALL FACING

The back of the pan sits flush against the wall leaving no gaps between the toilet and the wall. This style of toilet prevents dust or dirt falling behind the toilet.

CONNECTOR

A traditional looking toilet with the cistern joined to the pan by a plastic flush pipe. Because they are two-piece systems, Connector or Linked toilet suites give you the most flexibility in layout.

Step 2. Determine your inlet type

UNIVERSAL TRAP PAN

A flexible option that allows either an S Trap or P Trap installation.

P TRAP PAN

The toilet spigot is horizontal which connects directly into a pan collar mounted on the wall.

S TRAP PAN

The toilet spigot is connecting directly into the floor-mounted pan collar.

SET OUT DISTANCE

Measure the set out distance from the floor or wall to the centre of the waste pipe.

Step 3. Identify your cistern type

BOTTOM INLET CISTERN

The water enters the cistern via a hose connected into the bottom of the cistern.

CONCEALED CISTERN

A hidden cistern that is installed in a wall, roof cavity or under a bench top.

BACK ENTRY CISTERN

The water enters directly into the back of the cistern with the hose hidden from view.

Toilet Warranties

Each Caroma toilet suite is backed by extensive warranties to give you peace of mind. Each warranty covers residential and commercial applications.

Cisterns & Pans

Replacement products or parts
